Designed for high-end IT applications

**Professional
Modular
Multiple screens**

ViewMaster

The Dataflex ViewMaster product range has been designed for multiple purposes in various applications like office , IT and healthcare environments.

Reason why these products are made of solid die cast aluminium to meet the highest standards for both durability and stability. The entire product range consists of 6 major product lines being the series M1, M2, M3, M4, M5 and M6, all having their own design and characteristics, to serve best the application you need most.

The M2, M4, M5 and M6 series are available in both silver or charcoal colour. On these latter mentioned series you can choose between desk mount or wall mount attachments.

ViewMaster

M3

Our ViewMaster M3 series offers its users the best multiple screen solutions available. Designed specifically for high-end applications within IT, Designer and Monitoring workstations. This range consists of mounting solutions for up to 8 Flat screen Monitors. Using Longwings, Shortwings, connection kits, different heights of poles and desk mounting options, we make sure no more space is used up than absolutely required. And because of M3's modular build-up, a monitor solution can be created which fits your workspace perfectly. The die-cast aluminium horizontal wings and pivots together with its rigid steel posts deliver an ideal combination of design and strength. All M3 models are equipped with an integrated cable management system.

Designed for high-end IT applications

DFX ViewMaster M3-83
DFX ViewMaster M3-84

M3-83 : Polemount Double Bay 2x4
M3-84 : Polemount Double Bay Wide 2x4

The M3 flagship. It represents exactly what the M3 series is capable of. Designed for boardrooms, stock exchange solutions and observation applications. Users demanding the best the market has to offer. Combining short-wings, long-wings and connecting these using a bay kit, we created a truly imposing eye-catcher. Also as widescreen version, able to mount eight 24" widescreen monitors.

53.843 DFX ViewMaster M3-84-C (Charcoal)

DFX ViewMaster M3-63

M2-63 : Polemount Double Long Wing 2x3

The double long-wing mounts a total of six monitors. Like all other winged M3 products, all monitors can be adjusted individually in order to create a perfect parabolic curve, whatever type of monitors are mounted.

53.633 DFX ViewMaster M3-63-C (Charcoal)

DFX ViewMaster M3-34
DFX ViewMaster M3-35

M3-34 : Polemount Single Long Wing 1+3
M3-35 : Polemount Short Wing + Long Wing 2+3

Multiple monitor set-ups for four and five monitors. Combining a triple monitor supporting long-wing and a single monitor supporting pivot resulted in the 1 plus 3 solution. Replacing the single monitor supporting pivot with a double monitor supporting short-wing created this 2 plus 3.

ViewMaster Ball-joint system

The ViewMaster ball-joint system was designed to give flat screen monitor users maximum freedom of movement. Rotate, turn and tilt the monitor in any desired direction.

Attachments

Polemount Through Desk Clamp Mount

The trough desk clamp is the strongest way to mount the M3 monitor solutions to your desk. Can also be mounted on top of most cable management cut-outs in desks. Bolt size M10, diameter of clamp 110 mm.

53.962 DFX ViewMaster M-96-S (Silver)
53.963 DFX ViewMaster M-96-B (Black)

Polemount Desk Clamp Mount

If the desk is not equipped with cable management cut-outs and a M10 hole is not an option, use this sturdy desk-clamp to fix the polemount to your desk. Maximum clamp capacity 58 mm.

53.862 DFX ViewMaster M-86-S (Silver)
53.863 DFX ViewMaster M-86-B (Charcoal)

Arch design free-standing base plate

The base plate with its distinctive arch design goes perfect with any M3 series product. Because of its shape, users get maximum stability with a minimal footprint. Keeping the desk as clean as possible.

53.902 DFX ViewMaster M-902-S (Silver)
53.903 DFX ViewMaster M-903-B (Black)

Basic sturdy free-standing base plate

For those users preferring to have a very sturdy industrial baseplate, this version will suit them best. Only available in black.

53.901 DFX ViewMaster M-901-B (Black)

DFX ViewMaster M3-37

M3-37 : Polemount Double 2x1

The best way to mount two monitors above one another, creating a in-line setup. The ball-joints provide complete monitor flexibility.

53.373 DFX ViewMaster M3-37-C (Charcoal)

DFX ViewMaster M3-33-C

M3-33 : Polemount Single Long Wing 1x3

The long-wing mounts a total of three monitors up to 19". Like all other winged M3 products, all monitors can be adjusted individually in order to create a perfect parabolic curve, whatever type of monitors are mounted.
