

## FlexVan height adjustable in two different versions

### FlexVan

The height of the FlexVan is easily adjusted with a built in gas spring.

The FlexVan is available in two different height intervals to ensure best possible height of the working area.

The low model spans from 74-104 cm and gives you the possibility to use it while sitting on a chair.

## Waste Management

### CB Waste/Linen trolleys

Waste/linen trolleys in stainless steel with a pedal operated lid. The waste bag is fixed with a metal frame and is very easy to mount and dismount. The CB trolleys are very light and agile, and have four wheels with rubber bumpers.

### Wasty Waste bag holder

Wasty has a self closing bag holder in easy-to-clean pedal operated plastic. Wasty is available in two different heights, the lowest fits under a table. It is also available in a wall mounted version. The Wasty comes with either two or four wheels and has a cleaning friendly plastic base.

### About Standard Systemer:

Since 1962, Standard Systemer has been a major supplier to the healthcare sector in Denmark. Standard Systemer has a thorough knowledge of all nursing and patient care area.

Standard Systemer is a Danish owned company. We have our own production of medication carts (Carevans, Flexvans) and treatment and examination beds (Flexcare). We also supply documentation systems and plastic products for special projects within the sector.
